

## UK Assignment Update

God is blessing our time here in the Midwest as we've been sharing with families and churches how God is working through FamilyLife in the US, raising awareness about our upcoming assignment in the UK, and increasing the support we need to cover our ongoing costs there. We've applied for and received Ethan's British passport and, right now, we're in the process of applying for Lisa's UK Visa — this is an expensive and detailed process, and we appreciate your prayers for God to work out all the details.

We're actively meeting with churches, families and individuals that God brings into our path to raise up our remaining ongoing monthly support. We're on the home stretch, and once all that comes together and, after a few more goodbyes with friends and family, we'll be heading over to the UK. We still don't have housing in the UK sorted out, but we trust God will provide that too in the same way as we have witnessed Him provide our other needs.

We remain faithful to the plan that God has for us, and we are really thankful for your support. This is a team effort, and we couldn't do it on our own.

*Chris and Lisa*

## Together

Based on the US HomeBuilders Couples Series, *Together* is a 9-session course for married couples geared towards the European audience. The study is a natural progression for anyone that has attended *A Day Together*.

We recently heard a touching testimony about an atheist in Northern England who came to Christ while working through this study with his wife and a few others in a small group. Praise God for his inspiration in creating resources that reach various cultures.

## Weekend to Remember

The *Weekend to Remember* Getaway just held its final weekend of nine events closing out the Spring season in the US. For the Fall 2011 and Spring 2012 seasons, we saw close to 53,000 people in attendance, 1,985 salvations, and just over 18,000 people attended a special meeting where they could learn more about being part of the HomeBuilder movement of people across the US. If you're interested in learning more about being a *HomeBuilder*, please email or call us for more information.

### Praise Items

- Praise for the 1,985 known salvations at our *Weekend to Remember* events this past year.
- Praise that God has raised up a substantial portion of our additional support need.
- Praise God for successfully providing Ethan's dual-citizenship.

### Prayer Requests

- Pray for the remaining monthly support to cover our ongoing living/ministry costs in the UK.
- Pray that Lisa's Visa application would be smooth.

### Ethan's Escapades

I already had a US passport, but since Dad's British, I was also able to apply for a British passport. It finally arrived just three weeks ago, so I'm now an official dual-citizen! I hope to also help the FamilyLife team in the UK. I am excited to use the skills I got running the Audio/Visual for VBS at Oak Hills Church in Sioux Falls this past week.
